HW and Report Instructions

- Your submission should have 2 files. Please submit them on eLearning.
    1. A report in MS Word or PDF file with answers to the questions as well as necessary SAS/R outputs as screen captures.
        - Please write your report in a neat and structured format.
        - Adjust the size and position of the tables, figures, and plots so that your report is easy for TAs to grade. Do not screenshot the whole screen and copy it to your report. Use screen clipping in word if needed.
        - Please be concise and to the point in your answers. Don't include unnecessary information.
    2. One zipped file including all necessary SAS/R program files and data files.
        - The SAS/R program files should be able to run as is in the unzipped folder - include suitable library names definitions in the program file, and necessary data files in the zipped folder.
        - You will receive a 0 credit for assignments submitted without the code and output. No exceptions.
- HW #1, #2 are individual assignments. You are allowed to discuss the homework with your fellow classmates as well as refer to any generic online sources. However, each person must complete the homework independently and submit their own original attempt, with the names of the collaborators at the top.
- HW #1-#3 should be done in SAS. HW#4-5 should be done in R.
- Copying from others of from past solutions will be considered cheating. A score of 0 will be assigned if it is determined that a student was cheating. Further disciplinary actions may also be initiated.
- Other deliverables are group-based. If it is a group work, please write your group name as well as member names on the first page. You just need to submit one copy per group.
